### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the method claims is because the prior art of record does not disclose or suggest a method as claimed in which the hydrogen flows countercurrently to the liquid thereby stripping the liquid and also flows cocurrently with the liquid. The closest prior art to Cash does not disclose or suggest a method in which hydrogen flows countercurrent to the liquid. The Cash reference discloses a process in which the hydrogen only flows concurrently with the liquid. The primary reason for the allowance of the apparatus is that the prior art of record does not disclose or suggest an apparatus as claimed in which the holding member is a valve tray. Substituting a valve tray for the sieve tray of Cash would cause the Cash apparatus to be inoperable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
